

# Test Summary Report

## 1)Purpose

This document explains the various activities performed as part of Testing of functionalities of Test Application "TO-DO-MVP".

## 2)ApplicationOverview

Test Application "TO-DO-MVP" creates, edits and deletes tasks (to-do lists).

## 3) Testing scope

In scope: Functional testing of all modules (home screen (to-do-list), new to-do module, edit task module, to-do filter, to-do actions module, left side panel module)

Out of scope: UI and performance testing

## 4) Metrics

Check list:

Tests planned	Tests run	Passed	Failed
38	38	30	8

Test cases (only new task module):

Test cases planned	Test cases run	Passed	Failed
6	6	2	4

Bugs:

	New task	Task edit	Action menu
Minor		1	
Normal	2		
Major	1	1	
Critical			1
TOTAL:			6

## 5) Types of testing performed

Smoke, exploratory

## 6) Test environment & tools

Environment: STAGE

Device: Pixel 3 - Android 11 (Android Studio)

Version: 1.0

#### 7) Recommendations

App should be tested on a real device

#### 8) Exit criteria

All modules and functionalities are tested

#### 9) Conclusion

App is not recommended for LIVE release, big number of major bugs, one critical bug
